## TANIZAWA ST#0161

### Label

#### Tanizawa Safety helmets

In order to guarantee protection, the helmet must either have the right size or be adjusted to the head of the user. The helmet must be designed in such a way that the amount of energy produced by an impact results in partial destruction of damage of the shell and the interior decor of the helmet. A helmet which has been exposed to a severe impact should be replaced, even if a damage cannot be found. Original parts of the helmet and interior decor must not be removed or changed. Additional parts, paint, solvents, adhesives or self-adhesive labels may only be added in accordance with the instructions of the manufacturer. Please find an explanation of marking in the instructions for use. Material : ABS

Front (Inside)

Marking size : 50x15xR2(mm)

Name of manufacturer : Tanizawa Seisakusho, Ltd.

Identification mark of the manufacturer : 

Material of the shell : >ABS<

Type of helmet : ST#0161
